

The Works Cited page is a list of all the sources cited in your paper.

Works Cited

The Works Cited page begins on a new page. Center the title "Works Cited" without underlining, bolding, or italicizing it. If there is only one entry, title this page "Work Cited."

MLA now requires only the publisher, and not the city of publication. The 8<sup>th</sup> edition also does not require sources to have a publication marker, (such as "Print").

If a print source does not list a publisher and you can infer who the publisher is, place the publisher's name in brackets.

List the title of the source in quotation marks, and the title of the container in italics, followed by a comma and the date of publication. Since this is an online source, include the URL and date of access.

If a source has three or more authors, only the first one shown in the source is given. It is followed by *et al.*

MLA now requires URLs (when possible) when citing online sources. Omit "http://" from the address. The date of access is optional, but be sure to include it whenever possible, since online works can be changed or removed at any time.
